

6S System has 6 identical balancing circuits (1S presented here)

BQ79606A-Q1 Passive Balancing Circuit
6.6A 33W Max

6S System has 6 identical balancing circuits (1S presented here)

LTC330 (Balancing IC) + LTC6804 (Voltage Monitor IC) + LTC6820 (Isolated SPI interface) Active Balancing Circuit
Transformer saturating at 10A -> Cell Power Discharge 42W

Connection to LTC3300 IC
